## Book Review: "Let's Go For a Drive!" by Mo Willems

**By Mila T.**  
**Section 17**

Piggie and Elephant Gerald are the main characters. They are bored. Elephant Gerald had an idea to go for a drive. They packed lots of stuff. All of a sudden, they realized that they don't have a car. But that's not a problem. Piggie and Elephant always have ideas for fun. Children will love this book because it is fun and silly.

## Ask A Creeper

**By Aengus T.**  
**Section 23**

Oh creeper oh creeper  
Why are you so green?  
Oh creeper oh creeper  
Why are you so mean?  
Oh creeper oh creeper  
Why do you explode?  
Oh creeper oh creeper  
I'm always in building mode!

## Baby Sister

**By Mikey T.**  
**Section 18**

My baby sister is finally here,  
I waited for her almost a year!  
She and I love to play,  
I ready to her everyday!  
It is fun to give her a hug,  
Even if she gives my hair a tug!

## My Great Grammie

**By Thomas S.**  
**Section 47**

The most giving person I know is Great Grammie  
She is so generous and kind to me  
She's always been with me since my beginning  
When I see her it's so fun that it leaves me grinning

She makes me dinner and my favorite dessert  
Sometimes I eat so much until I hurt  
We walk and talk and play some games  
I find my pictures in lots of her frames

She moved nearby to spend more time with me  
I treasure this time that was meant to be  
I call at night so we can pray  
That God will take care of her every day

## Dragon Masters "Speed of the Tornado Dragon"

**Christopher M.**

### **Section 11**

The dragon masters and Griffith went outside in a storm and they saw a tornado dragon. Drake asked, "Are we going to catch that dragon?" Griffith replied, "Yes." Everybody said, "Let's go!!!" Griffith said, "I will look for the new dragon master and all of you go chase the tornado dragon." Rori said, "We will use worm to transport us if it goes fast." Griffith went in the castle and went to his workshop. He opened a box with a picture of a dragon on it. He asked the dragon stone that came from the prime stone glowed green. Picture popped up and shoved the new dragon master. Griffith found out of the new dragon master was in the land of Pyramid. Then Diego popped up and Griffith asked Diego, "Can you find the new dragon master?" Diego used his magic to go to the land of Pyramids. Diego found the new dragon master and asked, "What is your name?" The boy replied, "Christopher."

## Bradford Saves The Day

**By Varun V.**

### **Section 23**

Once there was a man named Bradford. He was a park ranger in New York City. One day he saw something strange at the park he worked at, a lion in a delivery truck. He knew at once that someone was stealing a lion. He looked at the license plate, DTB ESB. Then the truck zoomed away into a traffic jam. He told the police everything. The police found the truck and lion, but not the man. Bradford realized the license plate was a code. It stood for "Down the base" "Empire State Building." He drove there with the police. When he came there, he found a secret hideout. In the hideout, there were dozens of wild animals. He told the police all about it. Then they set traps. When the thief came, he got stuck in one trap. He was sent to jail, and the wild animals, including the lion, were all released into the wild. Everyone appreciated Bradford for his bravery and help.

**Make Our World Better!**

**By Sanvi Y.**

**Section 47**

I want to talk to you about how important it is to save our planet.

Don't forget we aren't the only ones on planet earth. Along with us there are plants and probably millions of animals. After all, we would be nothing without them.

Ex. Without cows we would not have any milk. Or without plants our food supply would decrease.

Through all my years of life personally, I have looked at earth through different perspectives. I have always thought that humans were on top of the world. I never realized until I was nine that leaders are nothing without the supporters. And it made me realize that we need the environment to live. If the environment can't support us we can't live.

So, what should we do? First off, we have to plant trees. You see, the earth works the same way as a greenhouse. Earth's atmosphere will always trap a little bit of heat from the sun. We need oxygen and not Carbon Dioxide. To make matters worse we are doing the process known as deforestation. Plus, using all modern technology we have released more carbon dioxide than ever. You might be wondering how much Carbon dioxide per day goes into the atmosphere because of these modern new technologies. Let me tell you that 115 million cars are the average cars that are driven everyday. Imagine how many tanks of Carbon Dioxide that could fill up. And that's just in America alone! Imagine that!

So, let's make sure everyone does their part. How can you help? Well first we can surely use recycling. Next off let's conserve things. Use the things you only need. Ex. If you are riding to a friends house whose house is a block away in a 7 seater van, is that really needed? No it is not you could ride a bike especially if not 7 people are going it just wastes time and energy. Please don't cause extra trash. And always plant trees and plants. The three R's are helpful too. Reuse, Reduce, Recycle.

So in conclusion, I think it is important to rebuild the earth to make it greener and cleaner!

**V**ery painful  
**I**nappropriate  
**D**isastrous

I did not like COVID-19 because I could not play with my friends a lot, I could not go anywhere outside and online schooling was not much fun for me.

COVID-19 was really unpleasant as many people became sick and many died. It was horrific, frightful, dreadful, and terrifying.

I hope this goes away soon,  
meanwhile just stay SAFE!
